I reiterate the item(s) I had raised in my email of June 29th, 2020. As previously requested, as the Only Adjacent Property Owner, I ask again for an explanation as to where the access to the stairway to the Beach is going to be from???? Currently there is a Platform (which has been constructed without approval) on the East side of the building. This Platform is accessed thru a glass doorway, (Which was never approved), and faces directly in to my Bedroom. In the new plans submitted, it is still not clear to me where the access to the stairway to the beach is going to be from. If it is not the Spiral staircase from the Roof (which had been approved) then where is the access to the Staircase????
